

The Smart Municipality

One System for a More Efficient City

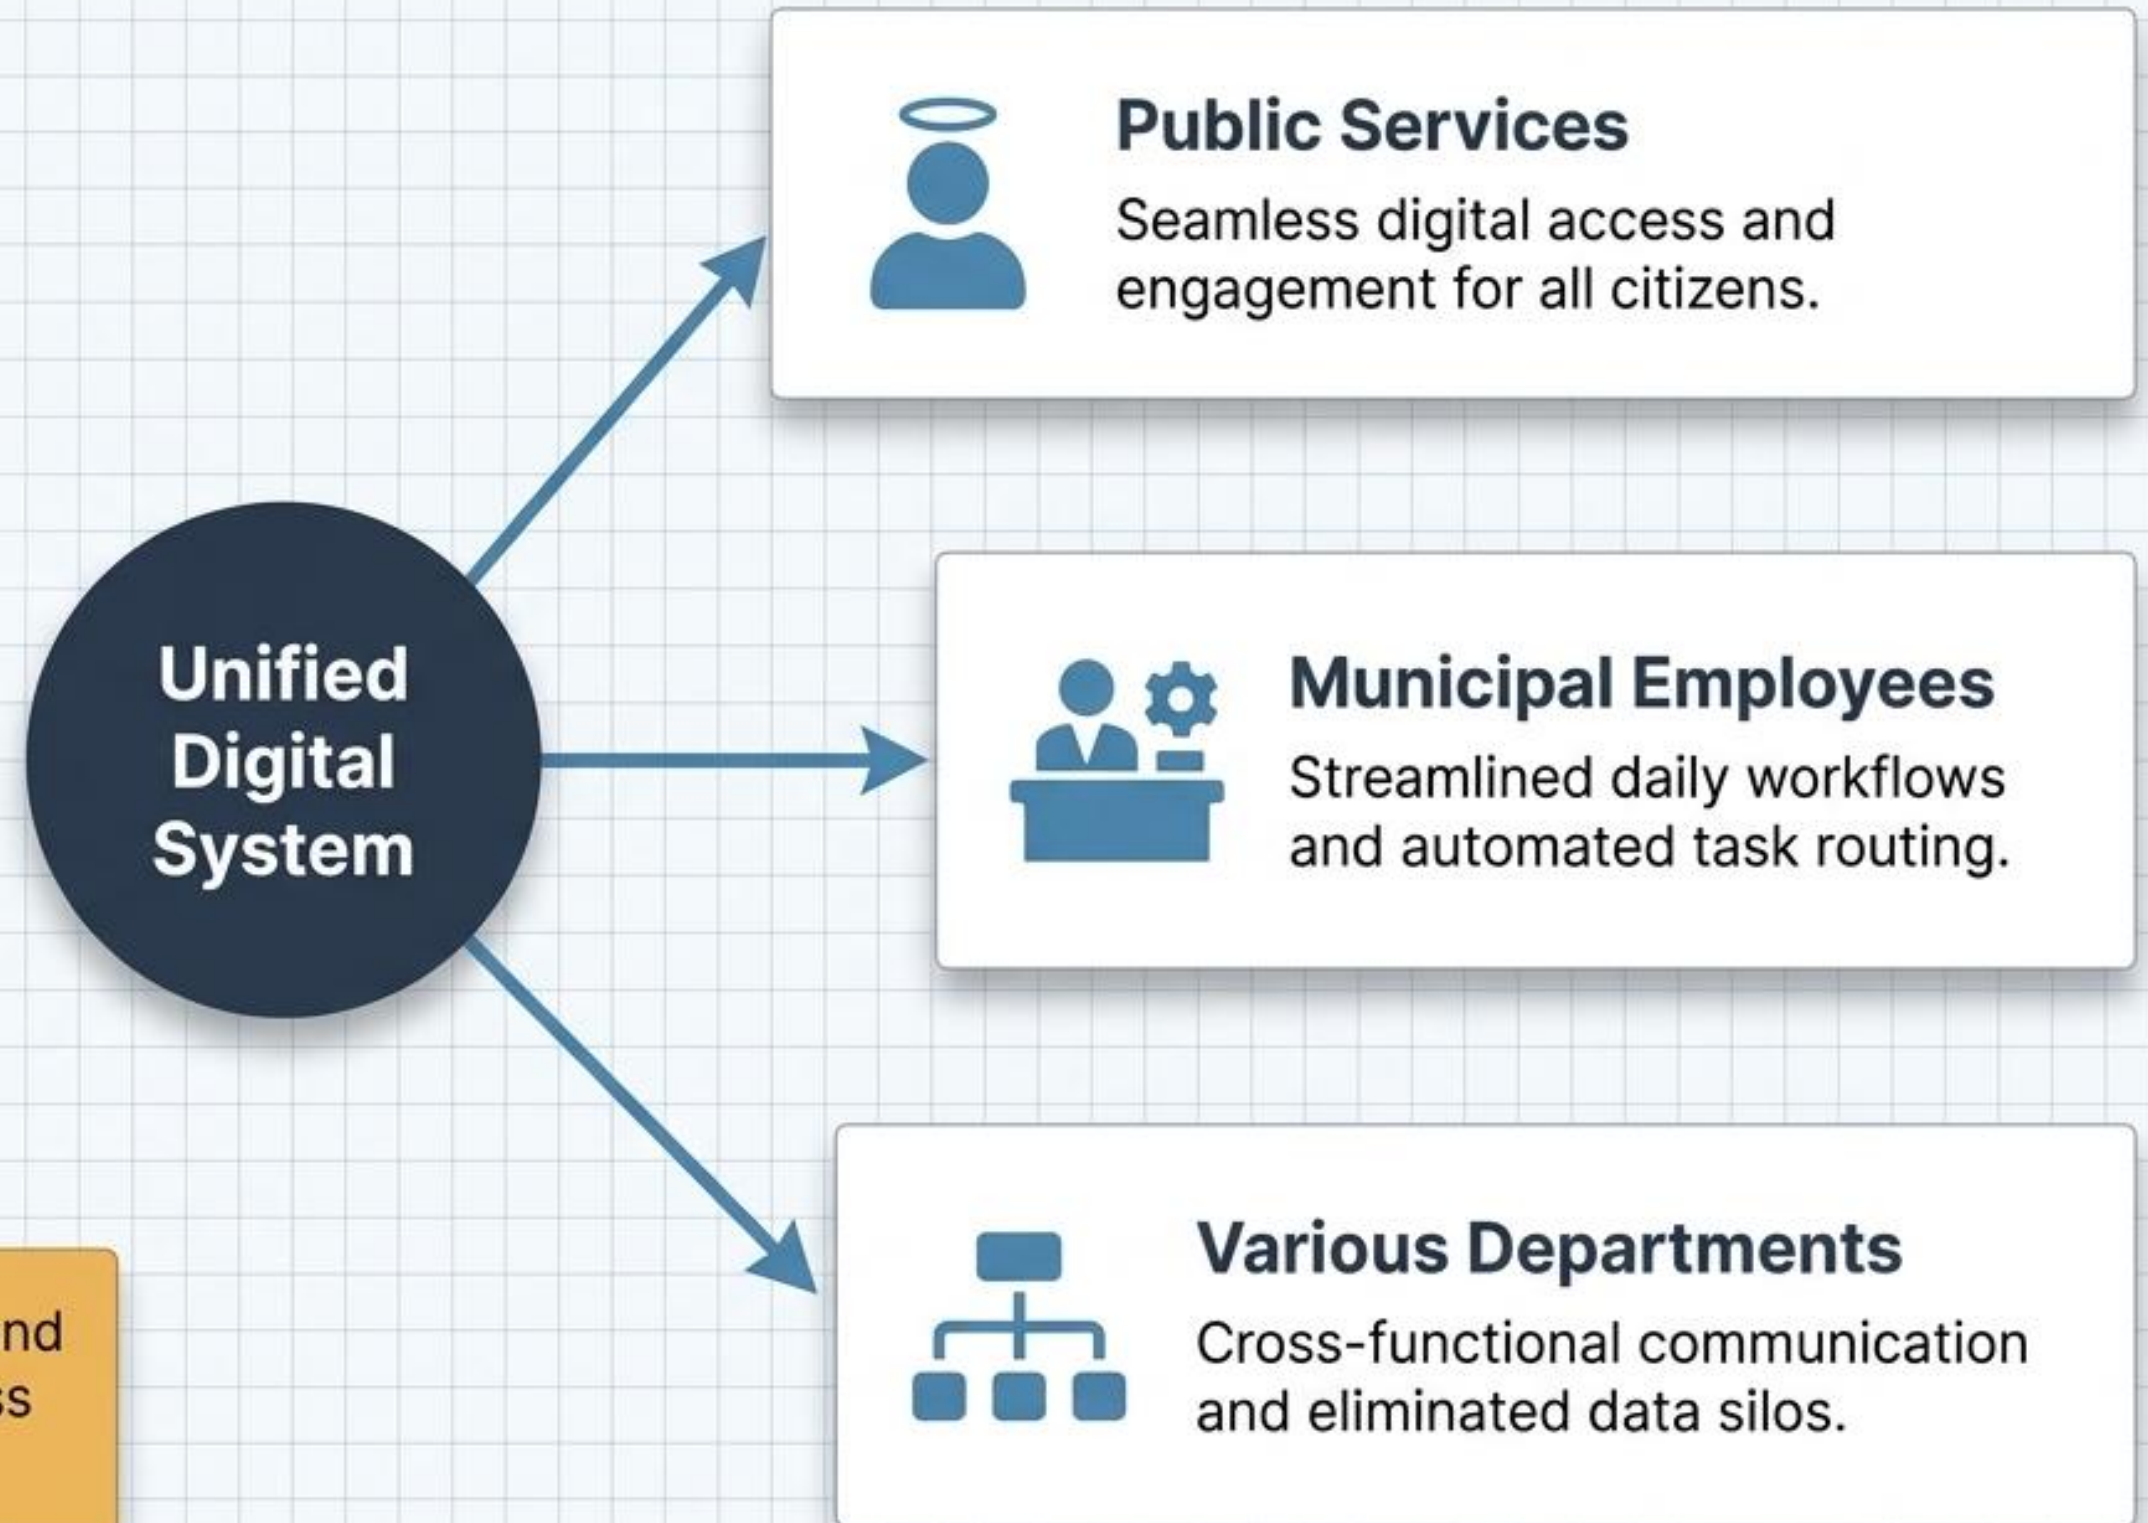

Integrated Digital Transformation

A Unified Municipal Ecosystem

Designed to unify services and administrative procedures within a smart, user-friendly platform.

IMPACT: Ensures rapid execution and smooth operational workflow across all municipal touchpoints.

The End-to-End Digital Lifecycle

Managing every element of municipal work from initial submission to final archiving without workflow breaks.

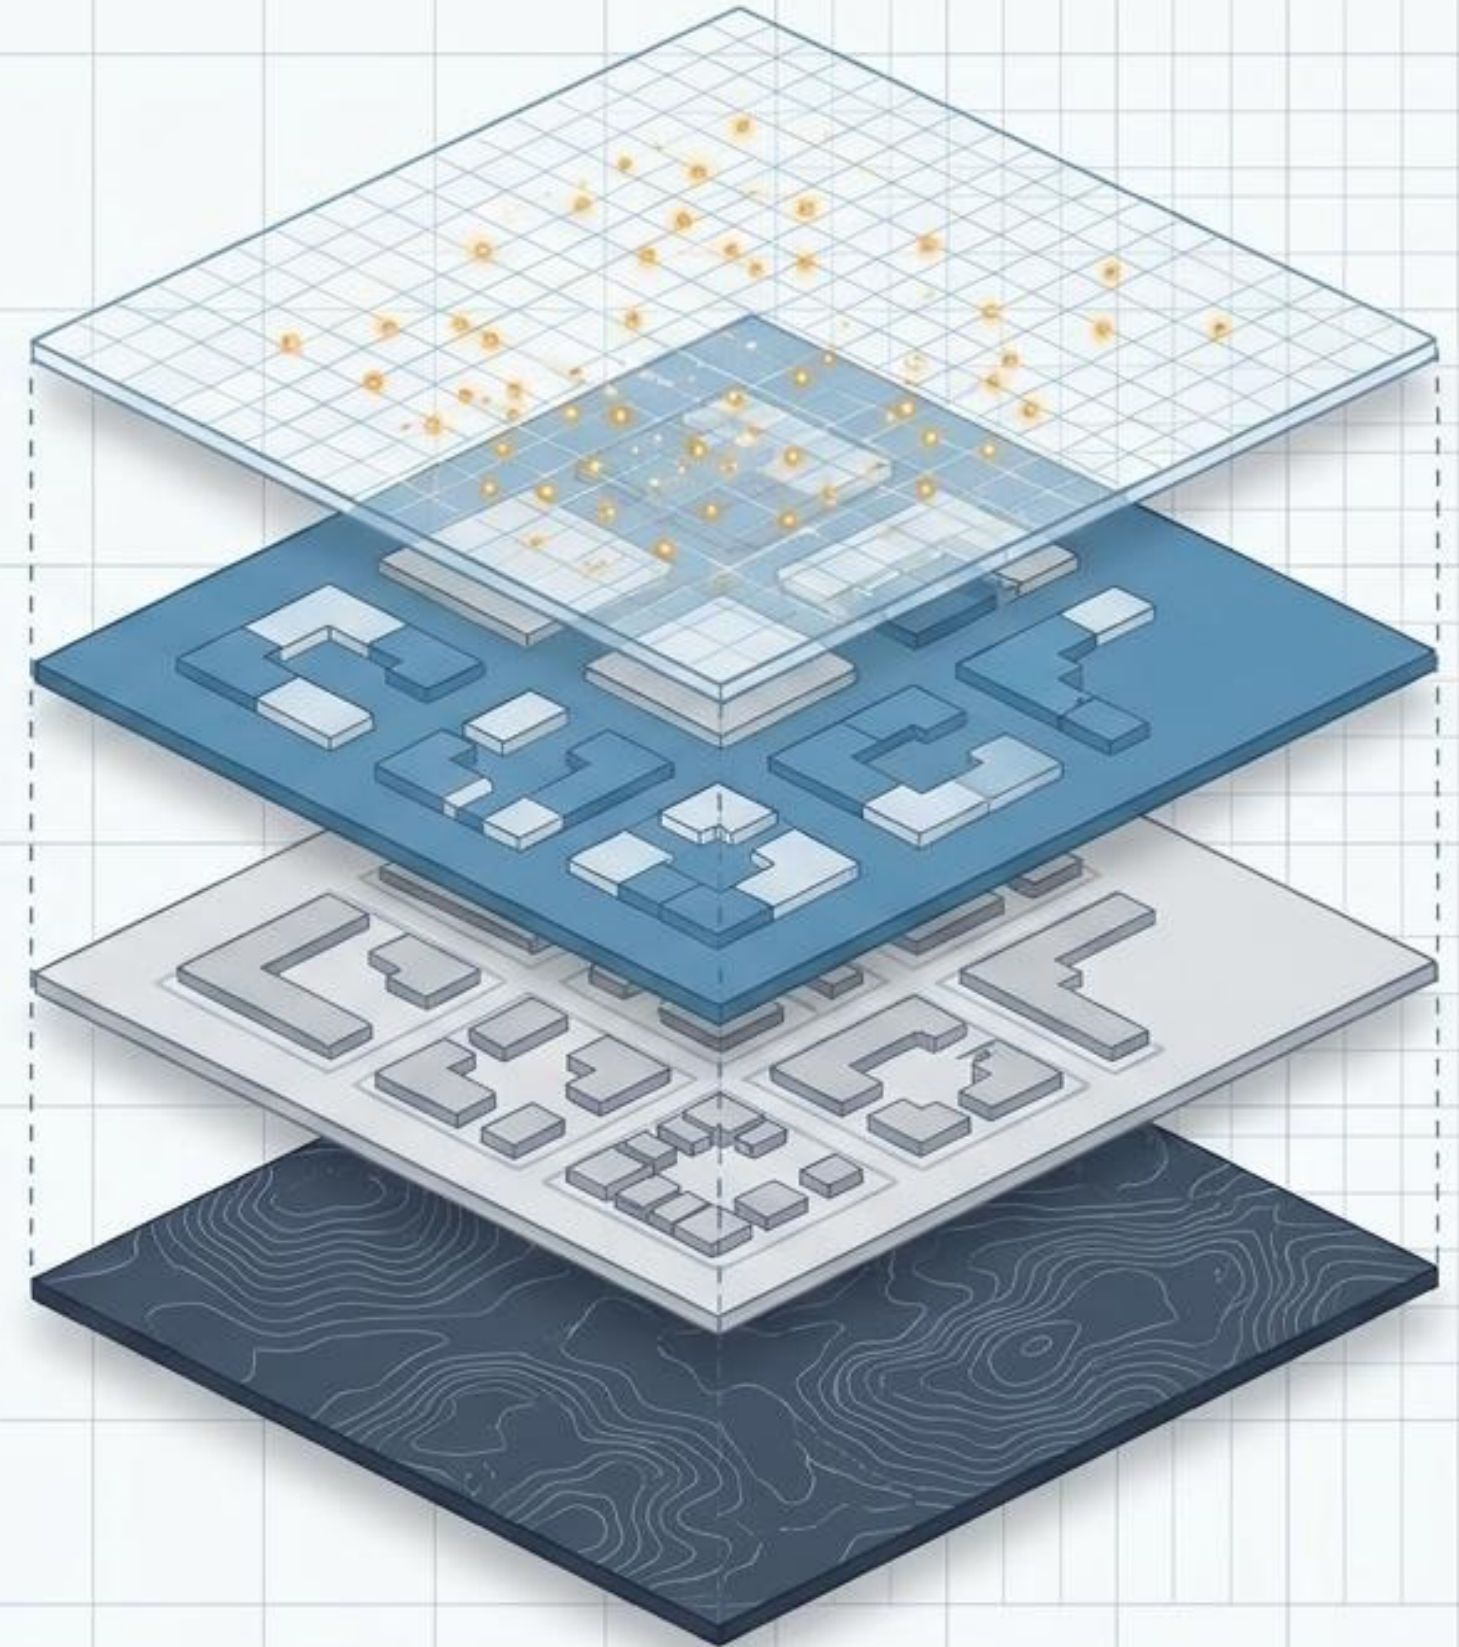

Advanced GIS & Spatial Data Management

Spatial Data Overlay
(Real-time GIS integration)

Units
(Internal zoning and
subdivision tracking)

Buildings
(Managing physical structures)

Land & Parcels
(Mapping terrain and boundaries)

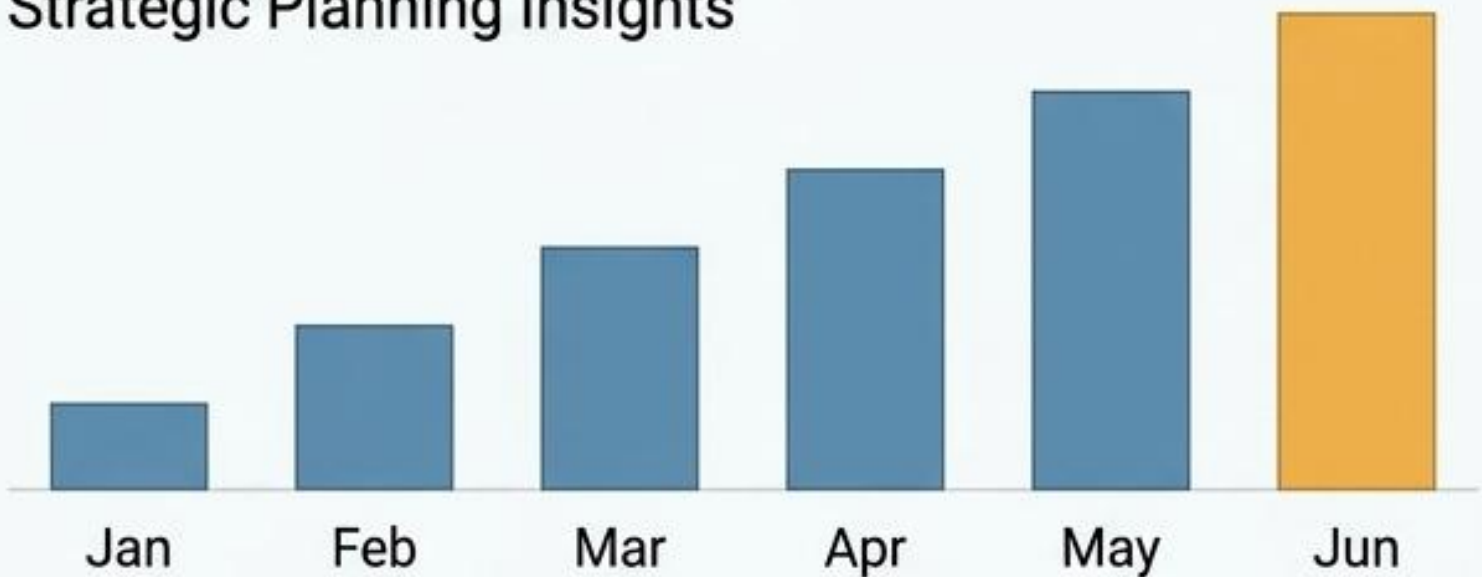

Executive Decision Support

Accurate Indicators

Real-time metrics on municipal performance across all active districts.

Strategic Planning Insights

Precise Reports: Data compiled for comprehensive operational visibility.

KEY TAKEAWAY

Elevating the overall efficiency of municipal services through data-driven governance.

Seamless & Accessible User Experience

Modern Arabic UI

A native, culturally aligned, and highly responsive interface designed for readability.

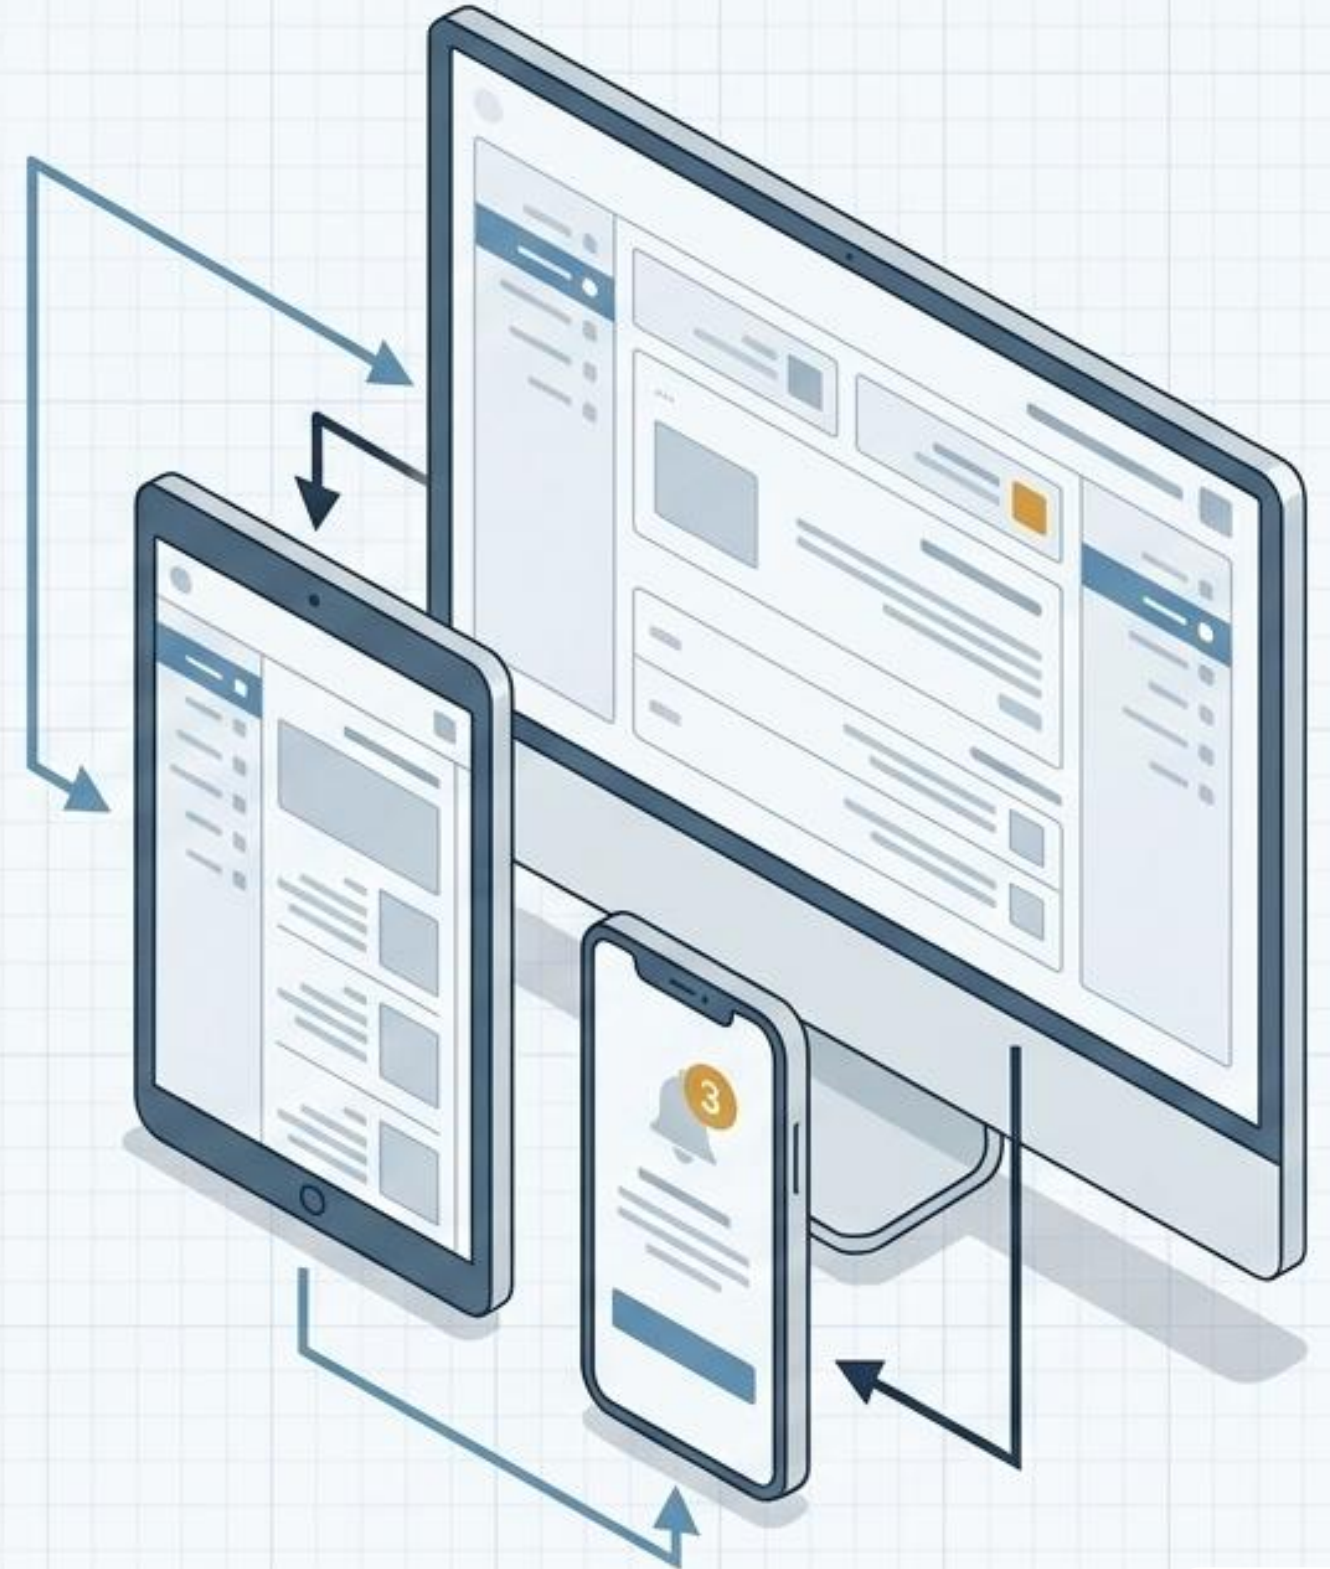

Cross-Device Compatibility

Tailored digital experiences for both employees and citizens on any screen size.

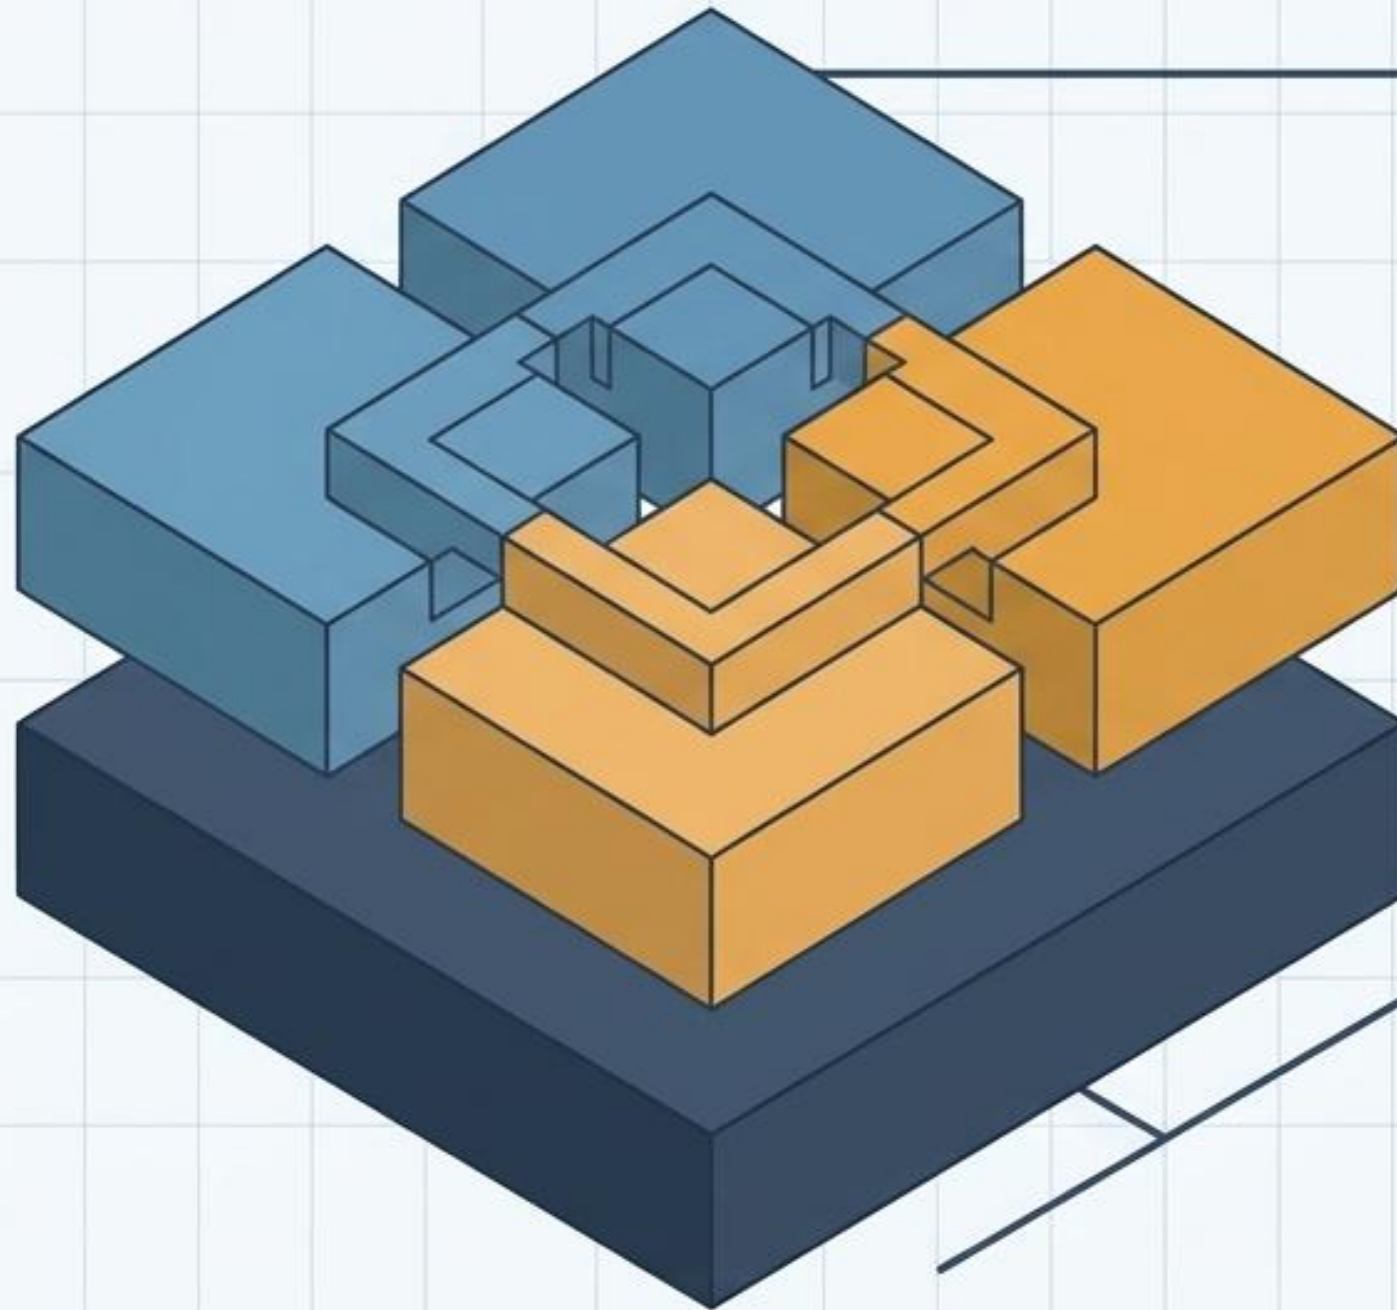

E-Services & Notifications

Proactive digital engagement, automated routing, and real-time status updates.

Future-Proof & Flexible Architecture

Built to scale seamlessly as the municipality grows.

Multi-Module Infrastructure

A flexible core foundation that prevents operational bottlenecks.

On-Demand Expansion

Add new services strictly according to future municipal needs.

External Integrations

Flawless data handshakes with external state and federal third-party systems.

Uncompromising Transparency & Tracking

Guaranteeing accountability at every tier of municipal operations.

09:42 AM

Clear Workflows

Pre-defined, visible paths for all administrative tasks ensure nothing is lost.

10:15 AM

Activity Logs

Continuous real-time monitoring of user actions and system events.

11:00 AM

Procedure Tracking

Step-by-step accountability for every financial and civic transaction.

11:30 AM

Change Histories

Permanent, immutable records of all document and status modifications.

The Transformation Matrix

	Traditional Procedures	The Smart Municipality
Architecture	Disconnected Departments & Siloed Data	Integrated Digital Ecosystem
Workflow Speed	Manual Handoffs & Physical Attachments	Automated Pipelines & Rapid Execution
Management Style	Reactive Operations	Highly Organized, Effective Digital Management

Transitioning to a Faster, More Organized Future

An integrated platform that moves municipal work entirely from traditional procedures to effective, highly organized digital management.
